Our Story

We are the Barnet Family, founders of Healthcare Products, LLC. We experienced the joy and hardship of living with our grandfather, George, who endured Alzheimer's.

Through his Alzheimer's years, our family found solace by providing the proper care and attention to make his difficult moments more comfortable. In the beginning, he was able to tell us how grateful he was for our love and care to ease his suffering but in the end, we were the ones grateful to be able to provide him with the utilities to make his journey with Alzheimer's more peaceful.

Living with Alzheimer's is an extraordinary hardship because of the breathtaking, progressive nature of the disease that seem inexplicable to all of us. This sense of helplessness urged us to cultivate guidance and education on Alzheimer's. Our family is now compelled to raise the bar for Alzheimer's care throughout the world. **We source this community to find and create resources to help with care.**

About These Products

Alzheimer's disease poses serious and baffling challenges for the individual with AD, their caregivers, family and professionals. It is a disease of the brain, being dealt with by both the person with Alzheimer's and the caregiver. Challenging behaviors, unexpected reactions, personality changes, wandering and constant change are just some of the obstacles faced repeatedly— day after day.

The products at the Alzheimer's Store represent years of research and working with patients and caregivers. These are the very best and most dependable products available, addressing many disease-related issues. In certain cases, when products do not yet exist, we will work with manufacturers to create them. If you cannot find a product that you are looking for, please call us— in many cases, if we do not carry it, we can tell you where to find it or perhaps manufacture it.
