## Our Story

We are the Barnet Family, founders of Healthcare Products, LLC. We experienced the joy and hardship of living with our grandfather, George, who endured Alzheimer's.

Through his Alzheimer's years, our family found solace by providing the proper care and attention to make his difficult moments more comfortable. In the beginning, he was able to tell us how grateful he was for our love and care to ease his suffering but in the end, we were the ones grateful to be able to provide him with the utilities to make his journey with Alzheimer's more peaceful.

Living with Alzheimer's is an extraordinary hardship because of the breathtaking, progressive nature of the disease that seem inexplicable to all of us. This sense of helplessness urged us to cultivate guidance and education on Alzheimer's. Our family is now compelled to raise the bar for Alzheimer's care throughout the world.

It started as a simple fundraiser in New York City with family and friends. The goal was to raise awareness of this, as yet, incurable disease. This fundraiser has now spread to the cities of Nashville, Palm Beach, Chicago and Los Angeles. We are now taking our quest a step further by bringing to you, The Alzheimer's Store. We hope you will utilize, as we did, the educational resources and health-related products available to make everyday life more manageable for your Loved Ones, their Caregivers and the facilities that house people with Alzheimer's and Dementia.

We are exceedingly grateful to Ellen and Mark Warner, the co-founders of The Alzheimer's Store for allowing us to further their mission of education and equipping the Alzheimer's community. When Mark first authored, "The Complete Guide To Alzheimer's Proofing Your Home", he said, *"the best gift a family can give to a sufferer of Alzheimer's is profound, abiding love and the finest care."*

## Free Home Safety Evaluation

In addition to providing you with outstanding products and educational resources in the management of your loved ones daily care, The Alzheimer's Store has advanced one step further by bringing to you a certified group of contractors that will **"Alzheimer's Proof Your Home."**

Each contractor is licensed and insured and has successfully met the criteria to be listed on our website as an **Alzheimer's Certified Contractor**. Simply use our web site or email us at [contractor@alzstore.com](mailto:contractor@alzstore.com) to find an Alzheimer's Store Certified Contractor closest to your area. Contact them direct and begin your evaluation, **FREE OF CHARGE**, covering suggestions on how to Alzheimer's proof your home.

By inspecting and providing Aging in Place techniques, your home will be an easier, safer and a more pleasurable place to live. By Alzheimer's proofing your home, your loved one may be able to extend the years of living at home rather than a senior residence, assisted living facility or nursing home.

There are some products that The Alzheimer's Store provides which may need professional assistance to be installed. There are also many projects and products recommended in [The Complete Guide to Alzheimer's Proofing Your Home](#) (page 16 in this catalog) that require professional installation. Please invite one of our Alzheimer's Certified Contractors to your home today to guide you through this important process.

**Item #0052(Extra Motion Detector)** **\$65.00**

### Confounding Door Lock

This ingenious, strong door lock requires no key and does not look like a lock. It opens by pulling and rotating the door-jamming "blocker" out of the way of an in-swinging door. Caregivers can unlock the door easily, but persons with dementia (who do not know the trick) can try for hours with no success (with rare exceptions). Works on doors that swing in only. It's easy to install. Can be installed on wood or metal doors. **Not recommended for use on exit doors - for safety reasons. Lock access only from inside. Available in Brass or White.**

Item #0247

\$27.95

### No Start Car Disconnect

The "No Start" Car Disconnect Switch attaches to your car battery. The car's battery cable then attaches to it. To disable your car, turn the green knob one quarter turn. To start the car again (and drive it), just turn it the other way to tighten it. **Note:** Use only on standard, gasoline-operated vehicles. Should not be installed on electric or hybrid vehicles.

Item #0060

### Stop Sign

This bold, highly visible sign can be placed on doors leading to the outside or to dangerous areas to help discourage individuals from opening the door. Made of thick vinyl, the signs are self-adhering and can be removed and relocated as necessary. It is also Class A fire-rated so it will not affect the fire rating of the door.

Item #0387

\$24.95

### "Fire-Rated" Door Mural

These high resolution, full color door murals camouflage the door, making it appear to be a set of shelves, rather than an exit. Often, wandering from the safety of home to the dangers of the street is simply a matter of taking advantage of an opportunity – "There's the door, let's go." But if the door is not so recognizable, the likelihood of opening that door and heading "home", is significantly reduced, if not eliminated. Use these door murals to improve safety and reduce attempts to wander out of the home. Size 3' x 6'8". Material: Class A, Fire-rated Polyvinyl. Self-adhering, Removable.

Item #0364

\$184.95

### Stop Sign Banner

This durable, red and yellow nylon banner presents an imposing visual barrier. Deter wandering residents from entering restricted areas or rooms. Adjustable straps can span openings up to five feet wide. Two or more can be connected for wider openings. Adhesive Velcro provided. Machine wash, hang to dry. 30x30x30 inches. Adjustable 1" wide straps.

### Medready PLUS

Offers all the benefits of the first two units, plus a phone modem that makes it possible for distant caregivers to know if and when medications were removed from the dispenser. Plug the unit into your phone jack and it will monitor the alarm times, plus post the information to a secure web site. If the meds are not removed by the end of the alarm duration, the MedReady PLUS will alert the Call Center to call up to three emergency telephone numbers. (The first number can be used to call the patient.)

### Automatic Stove/Oven Control

The Automatic Stove/Oven Control can be used to limit the times when the stove/oven are operable or to turn off the stove when there is no one in the kitchen. Program the counter-top motion detector to turn off the stove/oven 5, 10 or 15 minutes after the room is empty. To restart the stove or oven, just push "Start".

The Stove Monitor has two components, one fits behind your electric stove - it plugs into the wall and your stove plugs into it. The other fits underneath an adjacent cabinet or on the counter back splash, continuously monitoring activity in the kitchen. When no activity is detected the Stove Monitor begins the timer and then turns off the stove and the oven. Someone qualified to move the stove and install an electrical device is recommended.

**Specify 3-Prong, 4-Prong or Hard-wired \*works on electric stoves only**

### **About These Products**

Alzheimer's disease poses serious and baffling challenges for the individual with AD, their caregiver, family and professionals. It is a disease of the brain, being dealt with by both the person with Alzheimer's and the caregiver - brain versus brain. And it is not the caregiver, with the healthy brain, who always wins. Challenging behaviors, unexpected reactions, personality changes, wandering and constant change are just some of the obstacles faced repeatedly - day after day.

The products in the Alzheimer's Store represent years of research and working with patients and caregivers. These are the very best and most dependable products available, at the best prices, addressing many disease-related issues. In certain cases, when products do not yet exist, we will work with manufacturers to create them. And if you cannot find a product that you are looking for in the Alzheimer's Store, please call us - in many cases, if we do not carry it, we can tell you where to find it.

### **Don't Be Mistaken**

There is nothing shallow, childish or simple about any of the products in the Alzheimer's Store. In fact, most are quite deep, doing much more than they may seem. Upon investigation and discovering the underlying benefits reveals the result of years of research into Alzheimer's - the recognition of challenges consistent with the disease and searches for products to help people with this disease.

Each day we hear from caregivers and families whose lives have been changed by this disease, but also whose lives have also been changed by the products we have found and have to offer. Please let us hear from you. We'd love to hear your stories.

### **Tell Us about Products That You Discover**

As you browse through this catalog, there are sure to be other products you just wish you could find - tell us. We may know where to get them, and we would be happy to tell you.

You might also wonder how we find the products in this catalog. They are the result of long hours of searching and work, and plenty of helpful, knowledgeable friends, caregivers and professionals in the healthcare field, including people like yourself. So if you happen to run across a product that has served you or your loved one well or addressed a unique challenge, we would love to know about it. Send your suggestions to The Alzheimer's Store Customer Service Team at [contact@alzstore.com](mailto:contact@alzstore.com).

### **You Are Not Alone**

Currently it is estimated that there are more than 5.4 million Americans diagnosed with Alzheimer's disease. This does not count people with mild cognitive impairment, those who have been misdiagnosed and those with any one of many other progressive, degenerative neurological disorders. Yet everybody is different and each person travels the journey differently.

Our goal is to provide you with the latest products and resources to guide you in your journey with Alzheimer's and Dementia.
